## **Application to be a Mentor Teacher in the Somers Point School District**

I am interested in being considered for the position of a mentor teacher in the district's mentoring for quality induction program. I understand that the role of a mentor is critical to the success of a novice teacher and ultimately the key to student performance.

Name:

1. What specific personal and professional qualities would you bring to mentoring a novice teacher?

2. How are you at keeping current with your own professional development? What steps are you taking to be up to date on issues of curriculum and assessment?

3. What do you hope to gain by becoming a mentor?

4. Have you been trained as a mentor?
